CYR & SMITH
LUNDBRECK BLAIRMORE BELLEVUE

Rumor has it that L. W. Kribbs has purchased the Briscoe property, into which he will shortly move his grocery business.

The local clergy and licensees report a slump in the insurance business the past week. The rest must be getting wise!

Western Mechanical And Electrical Engineers

One of the most pleasant talks held in Calgary for a long time took place Friday evening at the Fairmount hotel, when some 40 delegates to the eighth annual convention of the Western Association of Mechanical and Electrical Engineers, assembled for the convention dinner, following some arduous work in the preparation of the constitution.

Some very clever speeches were made at the banquet, in response to various toasts, to the king, to the association and to the visitors. J. F. Porter, manager of the International Engineering company of Canada, presided.

The dinner followed upon a long day's work at the convention hall in the Alberta Loan and Investment Building Friday. The principal feature of the constitutional revision was the enlargement of the scope of the organization to include various other branches of the profession. The association, heretofore known as the Northwest Association of Stationary Engineers, in accordance with this decision, adopted the name of the Western Association of Mechanical and Electrical Engineers.

The annual reports of President J. H. Stewart and Secretary W. J. Singer indicated remarkable growth in all the branches of the engineering industry. The annual convention of the association is to be held in the fall and considerable attention will be given to the part of the delegates.

In response to a toast to the king at the banquet, Charles Shattole recalled on the king had made of a visit to the empire showed himself thoroughly at home with all the technicalities of modern marine engineering.

"The king, during his tour in the navy, took a very keen interest in all branches of engineering work," continued the speaker. "It seemed to be a subject in which he took especial pleasure. This resulted later, in his accession to the throne, in many valuable rewards."

J. H. Stewart, Edmonton, the grand editor of "Engineering," addressed the association. He said he felt satisfied over the rapid growth and bright prospects of the association, and produced a compilation of them.

"Our object, as you all know, is to make ourselves more efficient, and I trust that I am glad that we have such splendid men in our ranks. It is a splendid army," said the speaker.

W. H. Simpson, grand organizer of Frank, said he had just received numerous examples of the genius and other fine work done by the association, and that he desired from joining it and participating in a rapid growth or improvement in proportion as those benefits became more generally known among engineers.

A song by J. Delaney, Frank, elicited much applause, following which there was a presentation of a handsome suitcase to Grand Chief Stewart, who responded in suitable terms.

Officers for the forthcoming year were elected at the final session of the convention, Saturday morning, and in view of the splendid reception given the delegates by the local men, it was decided to hold the next convention in Calgary next August.

J. A. Stewart, Edmonton, was elected president; J. F. Porter, Calgary, vice-chair; W. G. Singer, Edmonton, grand secretary; W. Simpson, Frank, am. J. Vordin, Edmonton, grand organizer, and A. McNair, Calgary, grand guard.

Later in the afternoon the outside delegates were given an auto ride around the city, after which they dispersed to their homes.

I.O.O.F. Officers Elected

On the night of Tuesday, November 24th, the following were elected officers of Blairstown Lodge, No. 68, I.O.O.F., for the coming term:

Past Grand Master—H. G. Bigelow, Vice Grand—H. G. Benson, Recording Secretary—J. B. Harmer, Financial Secretary—J. F. Hunter, Treasurer—H. E. Lyon.

The new officers will be installed on the night of January 1st.

Officers Elect of Crows' Nest Encampment

At last Wednesday's meeting of Crows' Nest Encampment No. 8, officers for the coming term were elected as follows:

Past Chief Patriarch—H. G. Bigelow, Chief Patriarch—J. Montague, High Priest—Rev. J. McPhail, Senior Warden—A. Morency, Junior Warden—W. Willis, Recording Scribe—W. J. Bartlett, Financial Scribe and Treasurer—H. G. Benson.

Installation will take place at the first meeting in January, 1915.

Don't forget that Monday next will be nomination day in Blairstown for mayor, councilors and school trustees.

Help for Destitute Is Demand of the People

[From The Natal Reporter.]
While all around us funds and supplies of food and clothing, to say nothing of luxuries, are being sent to Europe, it would be well to remind these generous ones of the actual state of affairs in our midst.

It is about time that the Provincial Government took cognizance of the unfortunate position that many people here find themselves in, and took some action towards the relief of the destitute in this district.

The Michel-Natal Relief Association has collected \$1,000,000, principally over \$600,000, and considering the local conditions, it would appear as if they had reached their limit.

Some weeks ago, a delegation from the Board of Trade, interviewed the Government agent at Fermont, but so far without any apparent result. It isn't next spring, but now it is wanted. There is no use in being merely mouthed about the condition of affairs here, and the responsibility for any further suffering must, after this, be placed where it properly belongs. This community has been drained dry, in the laudable effort to render assistance, and the Government, (MUST is the word) come through with a sufficient fund to tide over the people who are in dire need.

This is no pleasant job, having to report to this publicity of this distress in his neighborhood, but "needs must when the devil drives," and having exhausted all other resources, we know of no way to obtain the assistance that is so absolutely and urgently required, other than this.

Death of Mrs. William

Adlam

The sad news reached town this week of the death of Maria, aged 64, beloved wife of William Adlam, and mother of William, Leonard, Walter and Robert Adlam and Mrs. J. A. McDonald, which occurred after a short illness at Ladymith, B.C., on Saturday, the 28th of November.

Mrs. Adlam had never completely got over the severe shock occasioned by the loss of her son Leonard in the great Hillside disaster on June 10th last. Since then her health has been gradually failing.

The remains will be brought to Blairstown, where interment will take place on Sunday at 3 p.m. from the home of Mr. and Mrs. J. A. McDonald, corner of Jefferson Street and Sixth Avenue. Rev. J. F. Hunter will conduct a short funeral service at the house prior to proceeding to the cemetery.

Friends and acquaintances will please accept this only intimation.

Great Response to Appeal for Help

First Presbyterian church and its Sunday school, in Shawnee county, Kansas, raise \$28 barrels of flour for the Belgian relief fund. This is the largest contribution from a church so far reported. Dr. S. S. Estey, pastor of the church, made his appeal to the congregation on the Sunday previous, and the response was the result of a week's preparation. Besides the above, cash to the amount of \$118 was also subscribed.

In a cablegram to W. R. Stubbs, Chairman Herbert Hover, of the American commission in London, said that the promised help from Kansas was one of the best reports the commission had heard from America. Part of his telegram follows:

"The splendid promise of support from the people of Kansas to work with the commission is one of the few rays of sunlight which have penetrated a situation clouded with the darkest forebodings. The need of these people is beyond description. A large percentage of them are dependent on imports for purchase of food, comprising a population of seven million self-respecting, labor-loving people, is now, because of the wall of steel built around it, rendered incapable of self help; a country where poverty was almost non-existent, has now been reduced to the absolute extremity of starvation, both among the rich and the poor.

"Through the leading men of their country they have offered every security which they can find to provide money for transportation of food; and they can do no more, and are dependent upon the generosity of the American people to fill the ships which we are now sending to the American sea-board."

HOW TO BANKRUPT THE DOCTORS.

A prominent New York physician says, "If it were not for the thin stockings and thin sole d's shoes worn by women the doctors would probably be bankrupted. When a woman at a cold don't wait for it to develop into pneumonia but treat it at once. Chamberlain's Cough Remedy is intended especially for coughs and colds, and has won a wide reputation by its cures of these diseases. It is most effectual and is pleasant and safe to take. For sale by all dealers."

PUBLIC NOTICE

Sitting of The District Court

A Sitting of the District Court will be held at BLAIRMORE on WEDNESDAY, DECEMBER 9th, commencing at 10 a.m. DATED AT EDMONTON, 27th November, 1914.

J. D. HUNT,
Deputy Attorney General.

Come Along With Your Christmas Ad.

Bombs From Air Crafts

The dropping of bombs from aircraft was first developed in the United States. Glenn H. Curtiss was the first aviator to demonstrate how a hand-pumped light incendiary bomb, the air, about 1910. Curtiss started the American navy department and those of Europe by dropping oranges and boxes of explosives in an aeroplane, was in itself dangerous, involving the possibility of an explosion. In rough weather, dropping a weight of above ten pounds during flight was supposed to affect the equilibrium of an aeroplane, and dropping a bomb was a good way to do it. But these limitations were removed in the characteristic speedy way in which all limitations are removed in aircraft.

In March, 1912, at St. Louis, "Tony" Janus dropped Albert Berry, weighing 176 pounds, from an aeroplane demonstrating that a load large enough to blow up a battleship could be dropped during flight without an explosion. This was followed in the year the Michelin bomb-dropping contests induced experiments at bomb-dropping, which resulted in a number of deaths. The aeroplane always went out of fifteen bombs in the target and winning the \$10,000 prize. These demonstrations were convincing, but the aeroplane had to be given to them by military authorities out of Russia and Germany, where such dropping contests had been held. But the aeroplane inventors and aviation experts continued their experiments, and there were evolved devices and bombs which were relatively safe, which could be made to serve the purpose. To eliminate the danger of explosion due to shock, for instance, when a bomb is exploded under a Martian-like which must fall a distance to make them effectual. The Martian-like bomb weighed twenty pounds, contained explosive charge of four pounds of trinitrotoluol, and \$4000.

Keep Books and Save Expenses

Ever: housewife knows she should have an account of all money received and spent. The housewife, as so many and often so small one would need a set of books to keep daily.

To this end, the housewife can get a pencil. Tack it in a convenient place and by its side tack a box with a hole in the cover.

As the pencil makes a note on the little pad, tear it off and slip it in the box. These slips should be dated and should state for what the money was spent.

Once a week sort and file and you will surely be satisfied with the simple bookkeeping.

First Office Boy—Well, did you ask your boss for a raise, right after his lunch, or not?

Second Office Boy—Yes, I did. I got fired! He'd got to take his typewriter tablet—Puff.

WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me.—"I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly walk. I had a doctor in my town, but I had taken Lydia E. Pinkham's Vegetable Compound and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since."—Mrs. M. J. Brown, Westbrook, Wisc.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases. If you want special advice, write to Lydia E. Pinkham Medicine Co. (concerned) Lynn, Mass. Your letter will be read, read and answered by a woman, and held in strict confidence.

A LIVE STOCK MARKET

Farmers of the West Can Now Market Stock at Regina

To make the raising of live stock more profitable to the Saskatchewan farmer, the city of Regina has decided to establish a market and industrial industries which naturally follow, with the least possible delay. The exhibition grounds, which contains 150 acres and great many cattle barns, have been turned into a stock yards, until such time as the city is able to secure a suitable site and erect the necessary pens and buildings.

The stock yards are to be a special equipment to take care of shipments of live stock from now on, and the farmer is thus assured of better prices. Arrangements have been made for the sale of live stock on the ground, so that the farmer is assured of a ready market and competitive buyers.

The stock yards will be under the control of the Industrial Commission, City Hall, Regina. He has already arranged for the stock yards to be derived by marketing their live stock at the Regina stock yards. Practically untouched on the proposition.

The officers on deck hurriedly awoke, wishing luck to the sturdy dog, and the dog, in turn, wished that he had the same as well as common sense, by threats, unheeding commands, and started the Hohenzollerns safely into port.

The next day the Kaiser came to the hounds and decorated the pilot with the Iron Cross and the Order of the Black Eagle, and also appointed him his life pilot in Norwegian waters.

The Friend of All Sufferers—Like

"the shadow o' a rock in a weary land" is Dr. Thomas Electric Oil! all those who suffer pain, if told to go to a doctor, will find relief.

These figures show an increase of cattle 321.310%; sheep, 75.25%; and hogs 1.081%. Although the figures are a period of twelve years, it is seen that the bulk of this increase has taken place within the past four or five years.

HOW TOGOLAND WAS WON FOR GERMANY

BAND OF FREEDOMERS AIDED TEUTONS IN CONQUEST.

GERMANS FIRST OCCUPIED THE COUNTRY DOWNS. THREE YEARS AGO, ENLISTED THE SERVICES OF A SAVAGE TRIBE TO CONQUER THE NATIVES.

The first of the German colonists to fall into the hands of Great Britain, Togoland, on the North West coast of Africa, was captured by a band of ladies as being the native home of the birds from whence come the high-prized marabout feathers.

Lobito is a quiet modern town, a clean little town with well-laid-out streets, shaded by palm and other trees. The principal business is the export of the produce of Mackayburg, the governor of Togo. To overcome the difficulties caused by the heavy surf which makes landing difficult, a long sand beach, a pier, a third of a mile long, has been erected, and connected with a massive wharf or quay at the seaward end.

Unfortunately the natives are forgetting how to handle firearms, and, as far as you can see, when the bridge connecting the wharf with the shore was destroyed by a tidal wave supposed to have been due to a submarine mine, the natives of Lobito almost entirely isolated from the outside world.

What is believed to be one of the most important wireless stations in the world was completed in preparation for the present war a few months ago, at Atakpame, about 110 miles from the coast, and is the chief receiving and distributing centre for the German colonies in Africa, and since messages can be either sent to, or received from, Nanking, Berlin, or Berlin, a distance of 3,450 miles, it was a most important link in Germany's world wide intelligence service.

Atakpame is the terminus of the railway, but the Germans have built a road from the coast to the south 100 miles to the north, a large motor-car has been provided to supplement the iron road for foreign purposes, and a road to the country nearer the interior of the continent.

There, however, the inhabitants are hostile and treacherous, and have the distinct advantage of taking refuge at the passing traveller with their poisoned arrows.

In this little-known part of Togo, there are quantities of monkeys, antelopes, leopards, and elephants, and many kinds of birds, including the much-endangered vultures, which are greatly valued for their feathers. The rivers swarm with crocodiles, and there are numbers of hippopotamuses.

As regards Togo history, this only extends back about thirty years, at which time the Germans first occupied the country. The first invasion of many different tribes, all hostile to one another, the dominant tribe of the southern region, eventually, was the warlike Sokoda, now, is, being the Tschadou.

These people were originally a conglomeration of tribes, the leading tribe of which they were, due to the north somewhere about a hundred years ago, devastating the country as far as the Atlantic, and as these animals had never before been seen in Togoland, the terror they inspired almost suffocated the entire spirit of the aboriginal owners of the soil.

When the Germans came from the south, a motley crew of bandits descended upon the country by certain freelance adventurers named Kersting, they endured their first real check at the hands of these wild nomads.

Impressed by the fierce qualities,

Kersting, following, in a small way, the example set by Cortes, in Mexico, and by Clever in India, himself, and by the king of the Tschadou, and, aided by him, eventually made the whole country and made it his own, and was the present ruler, an old but dignified and amiable savage named Dibba, is the son of the man who first made the country his own.

Although the bulk of the Togo natives are, as has been said, in a condition but little removed from barbarism, some of them, however, are less, show considerable skill in handi-crafts. Thus, at Bassari and Benjal, in the Kordofan country, iron is melted and forged into various articles, under exceedingly primitive, though fairly effective, conditions.

Other tribes cultivate cotton, which they weave into strong and serviceable cloth, on curiously primitive looms. Baskets, and, indeed, are also made, and large, strongly woven baskets of palm-fibre, of tabacum, of some of the luxuriant, but, even so, have not been able to give the preference to Canadian goods. But the manufacturer's duly paid, and when he makes a profit, he is entitled to it.

Thus, it would appear that the 7,000 men who are working in the soil of Togo are, at present, engaged in agriculture, through the war. It is possible the number of employees in four mills will have to be increased, but, even so, have not been able to give the preference to Canadian goods.

In the home market, also, there will be an increased demand for flour. The demand for flour will be met by more and more staple articles of food instead of some of the luxuriant, of tabacum, of some of the luxuriant, but, even so, have not been able to give the preference to Canadian goods.

Thus, it would appear that the 7,000 men who are working in the soil of Togo are, at present, engaged in agriculture, through the war. It is possible the number of employees in four mills will have to be increased, but, even so, have not been able to give the preference to Canadian goods.

French Colored Troops Heroes of 1870

The Algerian Sharpshooters, who, in the Franco-Prussian war, formed the main army in Alsace, are popularly known as "Turcos."

These dashing colored troops have been mentioned in the record of the war of 1870. The French soldiers from North Africa distinguished themselves particularly at Wittenberg and Spicheren, especially as being reckless and gallant bayonet charges.

It is well known the terrible memory of the charging "Turcos" remained with the German troops for years afterwards. In Upper Alsace that the "Turcos" did most of their fighting in 1870. They are there again, "but not," says a French writer, as the result of defeat, but in the front ranks of the heroes of revenge and victory."

Enormous Amount of Gold

It is estimated that nearly one hundred millions of American gold for the Bank of England will be in the vaults of the department of finance after the war. The war has been a heavy United States loan, it is stated, are maturing in England and the obligations will be met by the deposit of American gold with the Bank of England at Ottawa.

THE DUTY OF THE BUYER

Preference Should Always be Given to Home Products

(From the Toronto Globe)

If the patriotic manufacturer does his duty, he has a right to expect that his business will be locally supported, and buy Canadian goods wherever possible, and British goods in preference to those of foreign countries. For instance, self-preservation should teach the Canadian people that this is no time to import things that can be produced at home, and are wanted at home. The point is so clearly made in a letter addressed to the Globe by a manufacturing concern in Ontario that space is gladly given for it.

"We note from your excellent journal that you are endeavoring during the past few weeks to impress upon Canadian manufacturers the duty of keeping their plants running to the full, possible capacity, and to profit out of it by so doing that manufacturers will be contributing largely to the country in this present crisis. With this in view, we draw your attention to the fact that there is a limit to the possibility of any manufacturer of small tools.

"We are a small concern, manufacturing small tools. Throughout the winter of last winter and up to the end of January, we have been working notwithstanding the fact that our production was considerably in advance of our sales. Last month our sales increased to a point where we have had to slightly reduce our working hours. Our object in writing to you is, to call your attention to the fact that we have a limit to the amount of work we can do, and that, with the present demand for

machinery, we are bound to turn the balance to a German Gibraltar.

For purposes of protection, a cliff of granite was built so that no one could get near the engine, and the cliffs which are purely artificial. In addition, hundreds of tons of cement were used to strengthen the face of the natural rock.

Most of the people depend for their livelihood upon the lobster and other marine products, with their harvest from the summer waters. The lobsters live to long years, and have a native tongue the North Frisian dialect.

The British, however, have taken the island from the Danes. When the British took possession of the island it was the "jumping ground" of the lobsters of the British, and the fishing grounds of the French.

OF LOCAL AND GENERAL INTEREST

Read the F. M. Thompson Co's ad on our front page. It will pay you.

Excellent skating is reported near McLaren's Mill, and many local curlers have been frequent visitors there.

Mrs. J. P. Patton returned from Lundbreck last week, where she had been attending J. C. Drewry, who is seriously ill.

Mrs. T. Scott, who had been visiting her sister, Mrs. C. Church for a few days, returned to Pincher Creek on Friday.

For nuts, pools, dates, figs, and everything you want for that Christmas cake, see the F. M. Thompson Company.

The fall term of the Supreme Court (civil side) opened at Macleod on Tuesday, with Mr. Justice Jevs presiding. The docket included a number of important cases.

An error crept into the report of the accident at Hillcrest in our last week's issue. Mr. Thomas was not married, as stated, but was a single man of nineteen years of age.

James Haddad of Fernie, was in town the middle of the week. Mr. Haddad returned but a few weeks ago from an extended visit to Assyria, and is looking well after the trip.

The Kaiser has promised a sum of something like one hundred and eighty-eight dollars in our money to be divided between the men who capture every French or British gun in the present war.

J. E. Gillis and L. H. Putnam, of Blairmore, and H. Howes Roberts, of Coleman, went to Macleod on Sunday night to attend this week's sittings of the Supreme Court. T. Edwards kept house in the meantime.

A trio of Turkish missionaries who were detained at Macleod some time ago and afterwards released on parole, were re-arrested on attempting to cross the border into the States from British Columbia, and have been sent to the detention camp at Lethbridge where they will probably languish until the termination of the war.

Frank Happenings

Harry Jepson was a Burns visitor the early part of the week.

I. Delaney and W. Simpson returned from Calgary on Sunday last.

Messrs. Hilton and Jepson were visiting friends in Hillcrest on Monday last.

AH. Tristram left for Fernie on Monday morning to have his mastectomy replaced.

AH. Tristram and Fred Parker were in Bellevue on Sunday last renewing acquaintances.

Mr. Slingsby, of Coleman, was down visiting Mr. and Mrs. A. J. McKinnon on Monday last.

Mrs. Taylor and daughter and Mrs. Beaver, of Hillcrest, were visiting friends here this week.

A return basketball game between the recruits and the "gym" took place on Wednesday evening. Owing to Clark and Harvey suffering from cold feet, the "gym" had to effect some changes in their line-up. Marsh and Kennedy being very much off color. The "gym" opened the scoring, but Parker equalized. The honors were about even in the first period, but in the second the recruits took the lead, putting on no less than 21 points to the "gym's" one, and in the end were winners to the tune of 36-15. Fred, as usual, put on a big score of 26 points, Patterson 4 and Hillton 4. Mr. Young was the high scorer for the "gym". Mr. Hart, of Hillcrest, refereed a good game.

What may have been a serious accident happened last week at the home of P. McEwan, when Mrs. McEwan was heating some water and gasoline the latter ignited, setting fire to her clothing. Her presence of mind to smother the flames was all that saved her from serious burns.

D. J. Campbell, ex-sheriff of Macleod, is in town this week.

A. Cameron, of Coleman, spent Sunday with friends in Blairmore and Frank.

A sitting of the District Court will be held in Blairmore on Wednesday next.

Rev. W. H. Munster preached at Pasburg Presbyterian church on Sunday evening last.

A number of local Masons journeyed to Pincher by special car on Friday and returned to the Pass on Saturday morning.

In Japan and in England (not in Alberta, mind you) one has to put in an application for a telephone two or three years before it is installed.

An order in council has been issued by the Dominion government prohibiting the exportation of graphite and rubber, except to the United Kingdom and British possessions.

An interesting and useful booklet "Fish and how to Cook it" is issued by the Canadian department of naval affairs. It will be sent free to anyone applying to the department. It contains many simple recipes for cooking and serving many delicacies of the deep.

The wiping off of the last cent of debt on the Central Baptist church, Blairmore, was observed in a very fitting manner on Monday night, when a jubilee service was held in the church, during which the great roll of promissory notes were allowed to sounder on the collection plate. A large number of church members and friends were present. The meeting was addressed by F. M. Pitkney and Revs. J. H. Hunter and David Ross.

Rev. Mr. Hunter referred at length to the pioneer work of Rev. James Sargent several years ago, which led up to the present pleasant circumstances.

At the ratepayers' meeting on Monday night Mayor Lyon explained the meaning of the deficiency by-law published in this issue and on which the ratepayers will be called to vote on Monday the 14th inst. Every ratepayer should know the importance of such by-law and vote in favor of it.

Rev. J. F. Hunter preached at Kain Methodist church, Frank, on Sunday evening last.

Mrs. Kidd's maternity home, Box 95, Phone 151. Wedding decoration.

WANTED—Second-hand heating stove, must be in good condition. Apply at Enterprise office.

Rev. David Ross, of Lethbridge, occupied the pulpit of Central Baptist church last Sunday, both morning and evening. The attendance was large, and the discussions very interesting.

We regret that an error occurred in our issue last week in reference to the ten-cent tea held at the home of Mrs. Hiscock. The tea was held by the women of Blairmore and not in connection with the Presbyterian Women's Guild.

A. A. Cochran, head driller for the Taylor-Mackenzie Syndicate at Lundbreck, left last week for Cleveland, Ohio, operations at the Lundbreck wells having been suspended for the winter. The work will be resumed in the spring. One of the wells is down 1700 feet, and the other 350.

Very little interest was manifested in the annual meeting of Blairmore School District 628, and the ratepayers' annual meeting, both of which were held at the office of the secretary-treasurer on Monday night. The former only two of the five trustees made their appearance. At the latter, besides the mayor, and councillors, no more than twenty ratepayers were present. The results for the present year were very favorable, considering the conditions under which this year's council and trustee board have labored.

The Alberta Provincial horse show will be held in Calgary on April 21st, 22nd, and 23rd, 1915. Owing to so many exhibitors having already gone to the front or intend going it has been deemed to eliminate classes for saddle horses, hunters, jumpers, drivers, and to hold a straight breeder's show. There will be classes for the various purebreds. The prize list will be issued at an early date.

At the ratepayers' meeting on Monday night Mayor Lyon explained the meaning of the deficiency by-law published in this issue and on which the ratepayers will be called to vote on Monday the 14th inst. Every ratepayer should know the importance of such by-law and vote in favor of it.

The night schools are going ahead now with three classes, English language, under Rev. W. T. Young; Preparatory Class, under Mr. Lavol, and Mining Class under J. R. McDonald. Others should join as soon as possible, while the classes are in their early stages.

Dr. Hogan, of Swift Current, Sask., on a prolonged visit to the Sanatorium, on business or pleasure best known to himself, has been mistaken by some party as a German official or spy. Whether the doctor's moustache has any resemblance to that of Von Kluck we cannot say, but it is a pretty hard knock on an Irishman and a veteran of the South African campaign.

W. L. McKinnon, of Hosmer, has taken up the position of manager for the coal company here.

Mrs. J. Morgan, of Lundbreck, accompanied by Mrs. Sinclair, of Field, B. C., were down visiting Mr. and Mrs. Evan Morgan this week.

The night schools are going ahead now with three classes, English language, under Rev. W. T. Young; Preparatory Class, under Mr. Lavol, and Mining Class under J. R. McDonald. Others should join as soon as possible, while the classes are in their early stages.

Dr. Hogan, of Swift Current, Sask., on a prolonged visit to the Sanatorium, on business or pleasure best known to himself, has been mistaken by some party as a German official or spy. Whether the doctor's moustache has any resemblance to that of Von Kluck we cannot say, but it is a pretty hard knock on an Irishman and a veteran of the South African campaign.

CALIFORNIA WOMAN SERIOUSLY ARMED

"A short time ago I contracted a severe cold which settled on my lungs and caused me a great deal of annoyance. I would have had a coughing spell and my lungs were so sore and inflamed I began to be seriously alarmed. A friend recommended Chamberlain's Cough Remedy, saying she had used it for years. I bought a bottle and it relieved me enough the first night, and in a week I was rid of the cold and soreness of my lungs," writes Miss Marie Gerber Sawtelle, Cal. For sale by all dealers.

Cowley Happenings

You should see McIvor's store for bargains, and watch for his bills.

S. McDougall is shipping a bunch of pork carcasses west this week.

W. Drewry came here from Victoria last week on a visit to his brother.

HORN—On Tuesday last, to Mr. and Mrs. Wright, of the Purcupines, a son.

Quite a number of our local sports have gone deer hunting, and we wish them success.

The U. F. A., of Cowley, are contemplating buying a warehouse in near future.

Mr. McDougall, of Fernie, was in town on Friday to attend the bachelors-ladies ball.

Very Miles is moving his car of buggies from the station warehouse to A. H. Knight's sheds.

Mrs. J. Bird was a visitor at Bricket on Sunday, the guest of her mother, Mrs. Olin.

Dr. Warrack was in from Pincher Creek on Saturday, and addressed the farmers' meeting.

J. M. Easterbrook still carries a stiff arm, as the result of his runaway accident some time ago.

Mr. Hutchison, travelling agent for the International Harvester Co., was in Cowley this week.

Mr. Perry was a visitor to Pincher Creek on Sunday, and did not go alone. Things look suspicious.

Thos. Treble has moved over to the ranch east of Cowley, while Otto occupies the place to the west.

It looks as though winter has come to stay, when we see those frequent snow flurries and frosty nights.

H. D. MacMillan, accompanied by his daughter Agnes and Miss McDougall, of Fernie, journeyed to Cowley this week.

What sits the telephone these days? Is it the high winds, or is it carelessness on the part of line-men? Whatever it is, it should be looked after.

Gen. Bowmer and brids have shown up on their stable on their ranch north of Lundbreck. We wish the young couple a long and prosperous voyage.

Now is the time to think of renewing your subscription to The Enterprise. Did you see the big bargain you got for \$2.00? If you haven't, just look it up.

Anyone wishing to help on the poor at our door may send in their warmly-worn clothing to the Ladies' Institute secretary, and it will be taken care of to the best advantage.

The bachelor ladies of Cowley (of which there are many, mind you) gave a farewell dance in the hall on Friday night for the two North Fork boys who leave shortly for the front. They had a gaily decorated hall.

A turkey shoot will take place at the ranch of Mrs. M. Cleland on Wednesday next from 10 a. m. Thirty-five turkeys will be put up as prizes. The targets will be arranged at 100 and 200 yards. Lunch will be served at noon.

What might have been a serious accident happened last week at the home of P. McEwan, when Mrs. McEwan was heating some water and gasoline the latter ignited, setting fire to her clothing. Her presence of mind to smother the flames was all that saved her from serious burns.

J. C. Drewry, who has been confined to his bed for some time, is somewhat improved, although still in a precarious condition. Two nurses from Calgary are in attendance, and Dr. McKidd, who is doing everything that can be done for his patient.

Why Buy At Home?

Because our interests are here. Because the community is good enough for us to live in, good enough for us to buy in.

Because we believe in transacting business with our friends.

Because we want to see the goods we are buying.

Because we want to get what we buy when we pay for it.

Because some part of every dollar we spend at home stays at home, and helps for the welfare of our town.

Because the home we buy from stands back of the goods, thus always giving value received.

Because the man we buy from pays his share of the taxes.

Because the man we buy from helps to support our poor and needy, our schools, our churches and our homes.

Because when bad luck, misfortune or bereavement comes, the man we buy from is here with his kindly expressions of sympathy and words of cheer and if need be in practical help.

Let us make the Pass a good place in which to work and live.

It's easy and certain if every one will contribute his share.

The Pass merchants can supply all your needs and if you Take Them Your Cash you will get just as good values as you can get by sending your money to the Mail Order Houses.

Keep your money at home, and help build up Your Home Town.

The Daughters

of The Empire

The Daughters of the Empire at Medicine Hat, Macleod and Lethbridge have unitied in an undertaking in which they are asking the assistance of every woman in Southern Alberta. The urgent need of motor ambulances to facilitate the transfer of the wounded from the field of battle to the base hospitals has been much emphasized since the winter set in. Any woman can readily understand the need of having a motor ambulance to transport the wounded for many hours without the necessary attention.

Will you help to share these hours for some of the poor fellows who are doing so much for us, making it possible for us to live our regular lives while the great Empire of which we form a part is at war, by subscribing a little to send a motor ambulance from the women of Southern Alberta.

The provincial secretary of the Red Cross assures us that it will be most acceptable and may be attached to one of the Canadian hospitals in England or sent to the continent.

To make the gift an expression of the thought of many, not the few, you are asked to give 25 cents towards the \$2,000 necessary. Kindly act quickly, and send your subscription to either of the following Blairmore ladies: Mrs. W. Howe, Mrs. Shaw, Mrs. Raoul Green, Mrs. F. M. Thompson, Mrs. J. M. Carter. All amounts will be acknowledged through the press.

It is rumored that Mr. and Mrs. C. Clarkson just south of Cowley are shortly to move in to Pincher Creek. We will miss their old-time friendly faces, but wish them many comforts and pleasures in their new home, and hope they will pick up as many good friends as they have left behind them.

The U. F. A. had a meeting on Saturday last, which was largely attended. Considerable business was discussed. It was also the ladies' day out, and a gaily dressed bunch of girls went to the hall on Friday night for the two North Fork boys who leave shortly for the front. What won't women do when their dear ones are at stake?

A large bundle for the Belgians was handed in and twelve pairs of socks for the boys are still more coming. Also a donation of \$35.00 from the Bachelors of the North Fork. Dr. C. G. Johnston and other, which has been forwarded to the Red Cross Fund at Edmonton.

A good deal of discussion has been had on Calgarians lately about the school doors being locked and the little tots being left outside in the cold during some of those cold mornings. We in Cowley are wondering why the same system as that carried on here could not be practiced elsewhere. Our teacher one morning recently heard a cry of distress and looking outside noticed two little ones in a snow drift. He hastily went to their aid, and taking them in his arms bore them to shelter and warmth. Who could be so hard-hearted as to do otherwise these cold times?

J. C. Drewry, who has been confined to his bed for some time, is somewhat improved, although still in a precarious condition. Two nurses from Calgary are in attendance, and Dr. McKidd, who is doing everything that can be done for his patient.

Bellevue Happenings

J. D. McDonald spent Sunday at Lundbreck.

Dr. MacKenzie left this week on a trip to the coast.

The membership of Bellevue Lodge, L.O.O.F., is nearing the 100 mark.

BORN—To Mr. and Mrs. A. May, a son. Mother and son doing well.

Miss Maggie Patterson, of Blairmore, spent a day visiting in camp last week.

Mr. and Mrs. Edward Conpland spent Sunday at Burns, returning at night.

Don't forget the hockey dance in the Worker's hall on the night of December 8th.

Miss Jean Burrows spent a few days last week at Pincher Creek visiting her sister.

Charley Perry, the tailor, has moved next door to W. E. Cooper, and is now ready for business.

Mrs. A. Burey was at Lundbreck Sunday, visiting Mr. and Mrs. Bent. She returned straight.

BORN—To Mr. and Mrs. Allen Hamilton, a son. Mother and child doing well and father smiling.

The window of T. M. Burnett's store is attractive at present with H. M. S. Believe striped for action.

Mr. and Mrs. George Coupland returned home to turn in on Thursday after spending a few days in camp.

Jim Watson and Fred Chappell were the winners of the second prize in the Lethbridge football competition.

J. H. Naylor is putting on a great money-raising gathering, commencing on Saturday. See his large posters.

George Knuckles, the local blacksmith, has received word that his brother is held a prisoner by the Kaiser's army.

Mike Uola for a long time a resident of this camp, left this week for Rankin, where he has secured a position.

The Belgian consul restored at the Bellevue hotel on Tuesday and quite a number of Belgians reported themselves.

Mr. and Mrs. Thomas Bradley, of Pincher Creek, came to town Sunday night on a visit to Mr. and Mrs. James Radford.

The Bellevue rink is fast rounded into shape for the skating season. Don't forget that tickets can be bought at Blair's store.

The long-legged bird visited the home of Mr. and Mrs. A. Goodwin and left them a daughter. Mother and child are doing well.

Donald MacMillan left this week for his home in Scotland, where he intends spending the winter. He will return here in the spring.

Gordon, the dry-goods man, is distributing posters announcing a mammoth sale being conducted at his store by the Evely Sales Co.

We are going to have a bakery in Bellevue. It is understood that Mrs. Cawthorn is starting in the Farmer-Wheeler block, next door to A. I. Blair's.

The company which was to have presented "The Shephard's Call" at the Lyric Theatre failed to put in an appearance, in spite of the theatre management doing all in their power to advertise it.

Fit His Case EXACTLY

"When father was sick about six years ago he read an advertisement of Chamberlain's Tablets in the papers that fit his case exactly," writes Miss Margaret Campbell of Ft. Smith, Ark. "He purchased a box of them and he has not been sick since. My sister has stomach trouble and was also afflicted by them." For sale by all dealers.

Mike Rossi will be a candidate for school trustee at Blairmore.
